Client hereby expressly agrees that a breach by an Authorized User of the Master Agreement shall be considered to be a breach by and the responsibility of the Client.
- 3.3 Subject to the terms and conditions of the applicable Schedule, Axiell makes available to Client a nonexclusive, non- transferable, non-sublicensable right to access and use the SaaS in accordance with the Documentation to provide Managed Services to End Users. This authorization includes use of the SaaS by Authorized Users, provided that Client shall be responsible for all use by such Authorized Users. Client hereby expressly agrees that a breach by an Authorized User or End User of the Master Agreement shall be considered to be a breach by and the responsibility of the Client.
- 3.4 Unless otherwise specified fees are based on Named Users or Agents as specified in the Schedule.
- 3.5 Client acknowledges and agrees that in order for Client to access and use SaaS, Client is required to maintain minimum requirements such as operating system versions, browsers etc., as stated in the Documentation. If required, information about updates to minimum requirements will be provided to Client during the Subscription Term.
- 3.6 If Axiell provides Axiell Software to Client to enable or to optimize SaaS during the Subscription Term, such software will be listed in the Schedule. Such software is specifically provided to Client to help Client utilize certain applications and web services that may be available through SaaS. In such cases, Axiell provides Client, during the Subscription Term, a non-transferable and nonexclusive right to use such software solely in connection with SaaS and for the sole purpose of allowing Client’s applications or web services to utilize SaaS. 4. FEES, RENEWAL & TERMINATION

- 4.1 The Authorized Use Limitation and associated fees shall be as set out on the Schedule. In the event Client exceeds the Authorized Use Limitation, the overage will be treated as an order for excess use and Client will be billed for the overage. The overage will be included in the Authorized Use Limitation for the remainder of the Subscription Term. Client agrees that the purchase of any SaaS is not contingent on Axiell providing any future features or functionalities. In addition, Client may order any service catalogue items which may be listed on the applicable Schedule or on the Axiell Support site ("Axiell Support Site") and by: entering into a separate Schedule for same; opening a ticket on the Axiell Support Site; submitting an order at the site listed on the Schedule, and/or if applicable; enter into an agreement for professional services. Client shall pay any associated fees arising out of any such order.

Axiell will provide Client advance notice of any such suspension in Axiell's reasonable discretion based on the nature of the circumstances giving rise to the suspension. Axiell will use reasonable efforts to re-establish the affected SaaS services promptly after Axiell determines, in its reasonable opinion, that the situation giving rise to the suspension has been cured; however, after any suspension period, Axiell will make available to Client the Client Data and SaaS as existing in the Production environment on the date of suspension. Axiell may terminate the SaaS services under an order if any of the foregoing causes of suspension is not cured within thirty (30) days after Axiell's initial notice thereof. Any suspension or termination by Axiell under this paragraph shall not excuse Client from its obligation to make payment(s) under this Master Agreement.

- 5.6 Client agrees not to provide any health, payment card or similarly sensitive personal information that imposes specific data security obligations for the processing of such data unless it is a supported feature in the Documentation of the applicable SaaS Offering.
- 5.7 Data availability, retention and destruction post expiration or termination of the applicable SaaS Offering will be as follows: (1) Client Data will be available to Client during the Subscription Term and may be retained by Axiell for a period of no more than thirty (30) days from the effective date of expiration or termination; while this data is retained by Axiell, Client has the right to extract all Client Data held in the SaaS (2) A record of Client Data required to support audits of the billing transactions that occurred during the Subscription Term will be retained in accordance with Axiell's data retention policies for such activities and in accordance with the Master Agreement, including, without limitation, Article 6 (Security) of this SaaS Addendum. Axiell is not responsible for unauthorized access, alteration, theft or destruction of Client Data arising from Client's own or its Authorized Users' actions or omissions in contravention of the Documentation.
- 6.3 In the event that Axiell has determined that a Security Breach will or is likely to cause harm to the Client or an Authorized User, Axiell will, in accordance with Axiell's Crisis Management Policy and in compliance with Axiell's ISO 27001 Certification, provide Client with notice of the Security Breach. After initial notification, Axiell will keep Client updated at periodic intervals on the steps taken by Axiell to investigate the Security Breach including providing a reasonably detailed incident report, including measures to be taken by the Client to minimize potential damages. Notification is subject to State and Federal legislation related to the reporting of a Security Breach and will be provided up to thirty (30) days following completion of the report. Availability	means the situation where the Client can make use of the Axiell Applications.
(Axiell Collections) Level of availability	means the percentage of the time that the Axiell Applications are available to use, calculated over periods in which no disruptions occur or have occurred.

The working of an Axiell Application which could be expected in view of the user documentation	means the working of the Axiell Applications as set out in (a) the functional specifications set out in a Schedule, (b) the user documentation provided with the Axiell Applications and in (c) this Maintenance Addendum.
Incident	means a deviation from the working of an Axiell Application which could be expected in view of the user documentation, or which is caused by that product.
Incident Diagnosis	means the service which determines whether a customer-reported issue is caused by an incident, an issue or a disruption.
Incident Prioritization	Customer-reported issues registered as Incidents receive Priority status of 1, 2 or 3 assigned by the Service Desk • Priority 1 - An incident causing a total loss of service for a client, including high impact performance issues and security-related incidents • Priority 2 - An incident which seriously affects operation of the system, but which does not prevent its continued use • Priority 3 - An incident affecting an individual transaction, or cosmetic issues
Users Group	means an association of Axiell Applications users.
User Support	means support from or on behalf of Axiell to (representatives of) the Client with questions about the working of Axiell Applications.

4. **Changes**

- 4.1 Changes may be requested by either Party via Change Order.

5. **MAINTENANCE SERVICES**

- 5.1 This Maintenance Addendum relates only to Maintenance for Standard Software, for both hosting and non-hosting clients, and for the Axiell Designer as may be used by Client or Client's suppliers. Maintenance in connection with the Hosting Services or for Tailored Software is available for purchase separately. For the avoidance of doubt, this Maintenance Addendum does not apply to Tailored Software. Such software is not maintained by Axiell unless expressly and separately agreed otherwise.

6. **TYPES OF MAINTENANCE**

6.1 **Service Desk Support.**

- Axiell provides a Service Desk to receive Customer-reported issues and requests for support received from Client.
- The Service Desk has administrative responsibility for dealing with Customer-reported issues in accordance with the applicable service level.
- Client can utilize the Service Desk for all questions relating directly to the use of the Axiell Applications.
- Providing written reports containing all information relevant to the Client such as about the existence of Incidents and the issuing of updates, patches, new Releases and new Versions of Axiell Applications.
- Participation in and feedback about relevant consultation, including the Users Consultation.
- **Note 1:** Client is under no obligation to accept new Releases or Versions of the Axiell Applications. However, should Client decline to accept the same, Axiell is entitled to terminate the support or to attach new conditions to the support.

6.2 **Preventative Maintenance** consists of:

- ensuring that the Axiell Applications continue to work properly on the underlying System Software specified as being compatible;
- identifying trends in, links between and causes for frequently occurring problems (e.g. performance problems) and modifying the Axiell Software as needed;
- developing, testing and supplying new Releases of the Axiell Applications, furnishing with clear release notes containing all application changes and technical user documentation;
- Axiell will provide new releases of standard Axiell applications upon request at no additional charge. For on-premises installations, the client is responsible for the installation. In SaaS environments, installation will be carried out in cooperation with the customer. If needed, Axiell can assist with the installation in on-premises environments at the applicable hourly rates. Announcements regarding the availability of new Axiell product releases will be made through customary channels, including the Axiell website (alm.axiell.com).

6.3 **Corrective Maintenance** is comprised of:

- receiving Incidents from Client;
- Customer-reported issue Diagnosis by Axiell;
- rectifying customer-reported issues diagnosed as an Incident within the specified Rectification Time by issuing solutions to Incidents in the short term in the form of fixes or patches and in the long term as part of upgrades or Releases;
- Disruptions are excluded.

7. **SERVICE LEVELS**

7.1 Communication Procedures.

7.1.2 **In general.**

- At the operational level, operational contacts take place on an *ad hoc* basis between the Client's designated contact persons (See Appendix 1) and Axiell's Service Desk.
- At strategic level, liaison takes place at the initiative of the Users Group between the Users Group and Axiell about evaluation of the contract, expansion of the services, charges and/or software developments.
- Appendix 1 contains details of the relevant contact persons.

7.1.3 **For Customer-reported issue Handling.**

- In the event of a Customer-reported issue, the Client will notify Axiell in writing (e-mail). Such written notification must be accompanied by all information relevant to Axiell (if the Client deems this advisable for reasons of business security, it will use confidential channels of communication which it deems acceptable for this);
- If the notification relates to a Customer-reported issue which the Client believes to be an Incident, it must indicate with reasons whether or not it deems the Incident to be *urgent* in nature, i.e. that it prevents access to the database, transactions with the database or the inputting of data into the database.
- Axiell is obliged to diagnose the received Customer-reported issue as an urgent or non-urgent prioritized Incident, as a Disruption, Software Bug or as an Issue and to inform the Client of Axiell's diagnosis within the applicable Response Time;

- Axiell is required to rectify a Customer-reported issue diagnosed as an (urgent or non-urgent) Incident within the agreed Rectification Time (see Table at Section 7.3) and to make the relevant patch and/or Workaround available;
- If an incident is diagnosed as a Software bug, these incidents are excluded from the target rectification times quoted in the table at Section 7.3;
- A number of requirements must be met in order to be able to guarantee the response times (see Table at Section 7.3). Failure on the part of the Client to meet these requirements relieves Axiell of the obligation to produce a solution within the agreed time. The requirements in question are:
 - providing online access for Axiell to the Client's application and data;
 - clear description of the problem by the Client to Axiell;
 - Client has alerted Service Desk by telephone after submitting an urgent, high priority customer-reported issue;
 - reproducibility of the problem;
 - provision of information needed for diagnosis and/or solution at Axiell's request;
 - availability of Client's relevant contact person.
- A failure to comply with these requirements or a delay in complying, e.g. as a result of waiting time when making data available, will result in the response time being suspended and is therefore not included in the specified Rectification Time.
- If the Client fails to respond to Axiell's request for the provision of the information specified above within two weeks, Axiell is free to consider the Customer-reported issue to be resolved.

7.2 Standard Response Times.

- The Axiell Service Desk is open on Working Days relevant to the applicable region of the Axiell Service Center. This is also the period within which Axiell provides services in connection with Corrective Maintenance.
- Axiell will provide a Customer-reported issue Diagnosis within the agreed response time. For Customer-reported issues labelled as urgent by the Client this is no more than eight (8) hours for Customer-reported issues.
- In those cases that involve a Customer-reported issue which has been labelled as urgent which Axiell has diagnosed as an urgent Incident, Axiell will provide a solution as soon as possible.
- In those cases that involve a Customer-reported issue which has been diagnosed as a non-urgent Incident by Axiell, it is at Axiell's discretion, possibly in consultation with the Client, whether and if so when a solution or Workaround will be provided.

7.3 Summary of Services and Service Level Agreement(s).

Type of notification	Response Time	Incident Prioritization	Target Rectification Time
<u>Customer-reported issue (urgent)*</u>	1-hours	Incident – Priority 1	4-hours
<u>Customer-reported issue (urgent)</u>	4-hours	Incident – Priority 2	8-hours
<u>Customer-reported issue or Question (non-urgent)</u>	1-week	Incident – Priority 3	To be determined by Service Desk

*Client must alert the Service Desk by telephone after submitting an urgent Customer-reported issue.

 - Client will ensure adequate documentation of the phenomenon which gives rise to the Customer-reported issue, particularly specifying how the complained of situation can be reproduced;
 - Client will ensure adequate identification of the Versions and Releases which are in use operationally - both of the Axiell Applications and of the System Software.
- 8.2 In the case of a Service Desk question the Client must first have checked that the answer is not provided in the User Documentation.
- In the case of a Customer-reported issue, the Client must inform Axiell as soon as possible, preferably in writing (e-mail or letter)
 - Client must enable Axiell to do what Axiell believes to be appropriate or necessary.
 - The notification must be sufficiently clear and must be accompanied by all information relevant to Axiell. For Priority 1 incidents, the Client is required to alert the Service Desk by telephone of any high priority incidents they raise via the customer portal.
 - Client must ensure that the Axiell Applications including Client Data are accessible to Axiell.
 - Client's relevant contact person must also be available.
- 8.3 If it is found in the Customer-reported issue Diagnosis that a Customer-reported issue is not attributable to the Axiell Applications, Axiell is entitled to charge the Client at the rate then in force the costs incurred for any rectification. For the avoidance of doubt, the Customer-reported issue Diagnosis itself is a maintenance service, the costs of which are covered by Maintenance fee paid by Client to Axiell.

Data is stored in Azure regions selected to comply with applicable data residency requirements.

7. BACKUP AND DISASTER RECOVERY

Axiell reserves the right to adjust its Hosting Service commitments accordingly to remain aligned with the relevant Azure SLA in effect from time to time.

12. SERVICE CREDITS AND COMPLAINT HANDLING

Service Credits
